**SUPPLEMENT TO SUSSEX CELLULAR, INC.
PETITION FOR WAIVER OF SECTIONS 20.18(e) AND (g)
OF THE COMMISSION'S RULES**

Sussex Cellular, Inc. ("Sussex"), by its attorneys, hereby supplements its Petition for Waiver of Sections 20.18(e) and (g) of the Commission's Rules filed on September 28, 2001 (the "Waiver Petition").

On October 19, 2001, subsequent to the filing of the Waiver Petition, the Commission issued a Public Notice, DA 01-2459, providing guidance on filings by small and mid-sized carriers such as Sussex seeking relief from wireless E911 Phase II automatic location identification rules. The Public Notice gave small carriers who had not already done so until November 30, 2001 to file requests for Phase II relief. The Public Notice also stated that carriers who had already filed waiver requests need not refile, but could file revised requests or supplemental information if they wished.

Sussex believes that its Waiver Petition establishes clear good cause for waiver of the Phase II E911 rules. However, out of an abundance of caution, Sussex has decided to supplement its Waiver Petition to ensure adequate compliance with the Public Notice's requirement that carriers provide a description and history of their Phase I deployment, information concerning valid Phase II requests, and other information that will assist the

Commission and affected parties in monitoring and coordinating the deployment of E911 Phase II. By this supplement, Sussex wishes to clarify that it has not received any requests from PSAPs for Phase I deployment. In addition, Sussex has received no valid requests for Phase II service and no such requests are pending.

As stated in its Waiver Petition, Sussex takes seriously its responsibility to provide reliable 911 service. Pursuant to a written request received from the State of New Jersey in 1993, Sussex has delivered 911 calls to the New Jersey State Police Barracks at Totowa, New Jersey, roughly 30 miles southeast of Sussex's CGSA.^{1/}

Respectfully submitted,

SUSSEX CELLULAR, INC.
